

Using Zoom on a Chromebook

Zoom is a communications app that is used for video conferencing and virtual meetings. You can run meetings for up to 40 minutes and have up to 100 participants for free.

This tutorial is based on **Zoom for Chrome - WPA** which is the latest version of Zoom for Chromebooks. Zoom is recommending this version and will not be supporting earlier versions much longer.

Uninstall previous version before installing this one.

Instructions

- 1) Open your **Play Store** by clicking on the **Chromebook Launcher**

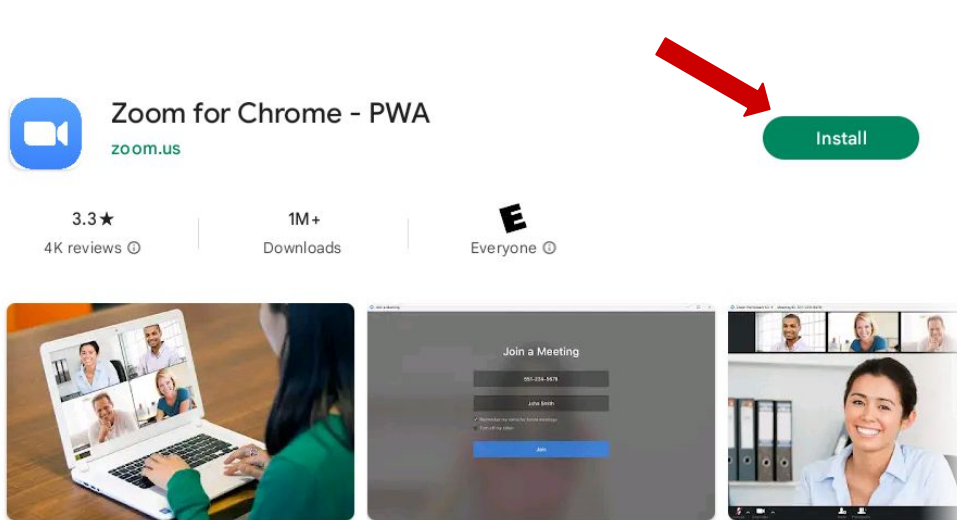

- 2) Click on the **Play Store** icon

3) Type “**zoom for chrome - pwa**” in the search box, and tap the **enter key**

4) Click on **Install**

5) Now the Zoom Icon will show up in your Launcher

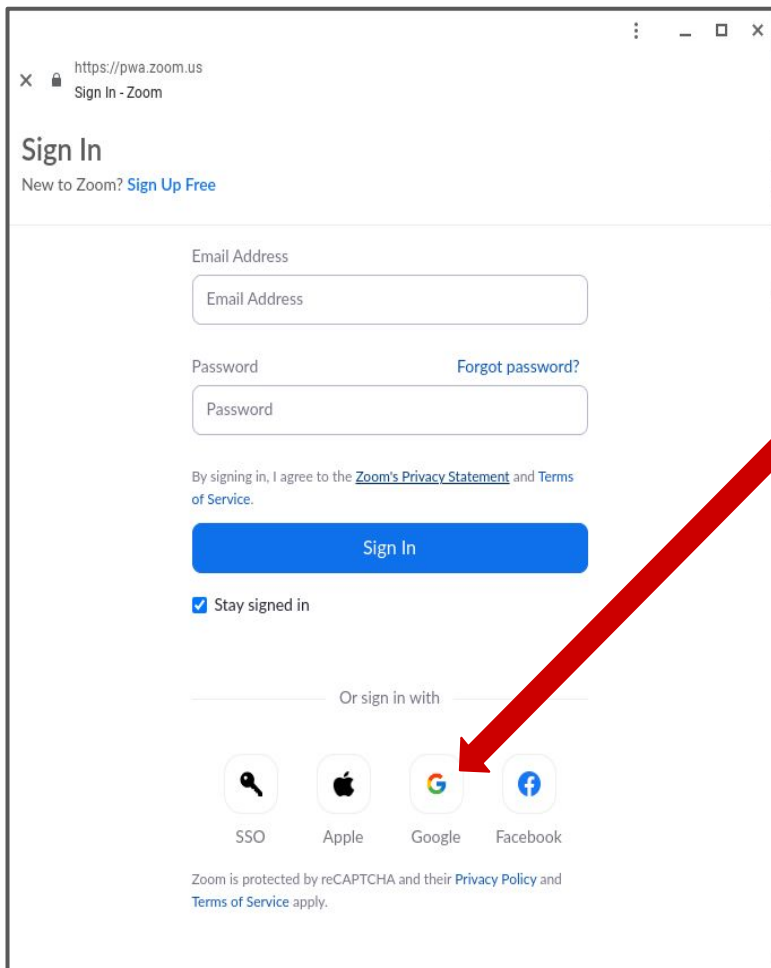

6) Click on it to open

Signing into Zoom:

Click On the Google Icon and follow the prompts to log in.

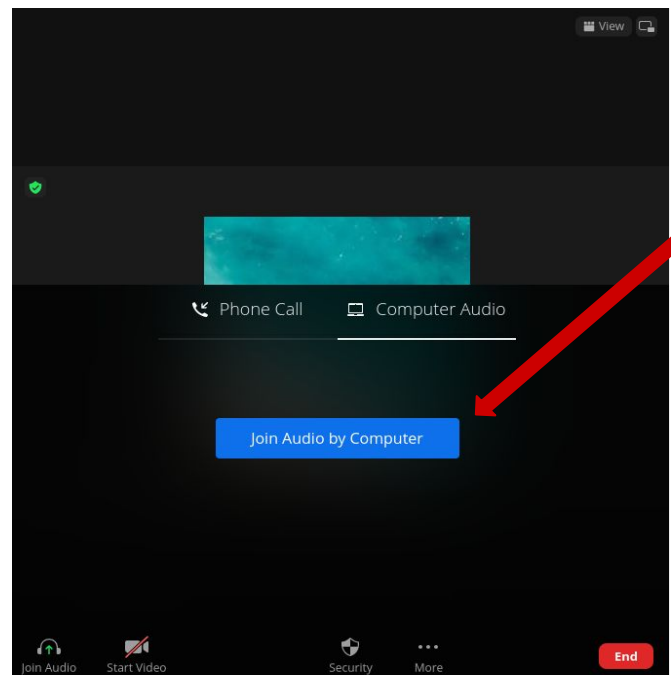

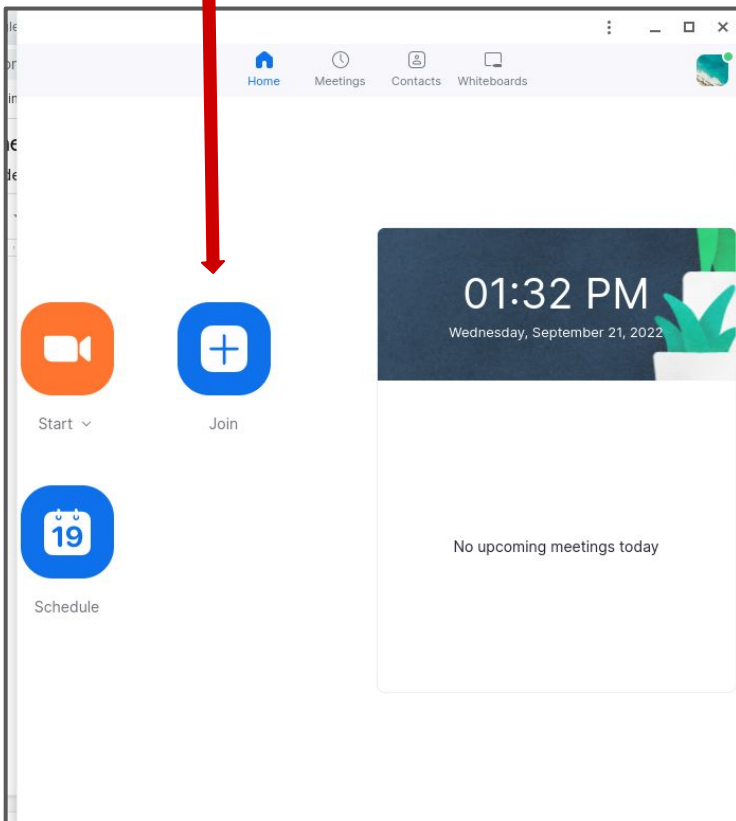

Or if you have a Zoom account, enter your Zoom username and password.

The image shows a browser window with the URL <https://pwa.zoom.us> and the page title "Sign In - Zoom". The main heading is "Sign In" with a sub-link "New to Zoom? [Sign Up Free](#)". Below this are two input fields: "Email Address" and "Password". A "Forgot password?" link is next to the password field. A blue "Sign In" button is positioned below the fields. Underneath the button is a checkbox labeled "Stay signed in" which is checked. A horizontal line separates the main form from the "Or sign in with" section, which contains four icons: SSO (key icon), Apple (apple icon), Google (Google logo icon), and Facebook (Facebook logo icon). A large red arrow points from the right side of the page towards the Google icon. At the bottom of the page, there is a small text notice: "Zoom is protected by reCAPTCHA and their [Privacy Policy](#) and [Terms of Service](#) apply."
